📄 SUMMARY

MCA graduate with internship experience in Frontend Development and Python-based projects. Skilled in building responsive web applications using HTML, CSS, JavaScript, Bootstrap, Flask, and Python. Developed real-time projects including a Face Recognition Attendance System. Passionate about web technologies and Full Stack Development. Seeking entry-level opportunities as a Web Developer, Frontend Developer, Junior Full Stack Developer, or Python Developer.

🎓 EDUCATION

MCA – Master of Computer Applications

Bharathiar University, Coimbatore

2024 – 2026

79.9% (up to 3rd Semester)

Bachelor of Science in Mathematics with Computer Applications

PSG College of Arts and Science, Coimbatore

2021 – 2024 | 79%

Higher Secondary Certificate (HSC)

Selection Matric Higher Secondary School

2020–2021 | 77%

Secondary School Leaving Certificate (SSLC)

Selection Matric Higher Secondary School

2018–2019 | 69 %

🧠 SKILLS

- **Programming Languages** — Python, JavaScript, SQL
- **Web Technologies** — HTML5, CSS3, Bootstrap, Flask
- **Database Management** — MySQL, DBMS, RDBMS
- **Version Control** — Git, GitHub
- **Tools & Platforms** — VS Code, Jupyter Notebook, Google Colab, MySQL Workbench, phpMyAdmin, Figma, Canva, Microsoft Office
- **Soft Skills** — Quick Learner, Team Collaboration, Communication, Time Management

📁 INTERNSHIP EXPERIENCE

Frontend Developer Intern (Jan 2026 – Mar 2026)

- Developed a fully responsive company website using HTML5, CSS3, JavaScript, and Bootstrap.
- Built reusable UI components with structured layouts and intuitive navigation for seamless user experience.
- Ensured cross-device compatibility across desktop, tablet, and mobile viewports.

PHP Intern (Apr 2026)

- Gained hands-on experience with PHP fundamentals and MySQL database integration.
- Worked on server-side scripting and contributed to basic web application development tasks.

UI/UX Design Intern (Jun 2025 – Jul 2025)

- Designed user interfaces and wireframes using Figma, applying user-centered design principles.
- Created UI assets and design enhancements with Adobe Photoshop for improved visual quality.

📁 PROJECTS

Bloom and Co. – Flower Ordering App (E-Commerce)

- Built a fully responsive flower-ordering web application using HTML5, CSS3, and JavaScript.
- Implemented dynamic order handling with LocalStorage for a seamless shopping experience.
- Structured the codebase for straightforward backend integration in future development.

Face Recognition Attendance System (Python)

- Developed an automated attendance system using face detection with OpenCV and Python.
- Reduced manual effort significantly by automating the attendance recording process.

Company Website Development

- Designed and built a responsive, multi-page company website with optimized performance.
- Created structured pages with user-friendly layouts and intuitive navigation flows.

📄 CERTIFICATES

- AI for Beginners – HP LIFE
- UI/UX Design (Figma & Photoshop Basics)
- Cyber Security (Gold Category) – NASSCOM
- Data Structures & Algorithms Using Java – NPTEL
- SQL and Relational Databases – Cognitive Class
- PHP Internship – Blazingcoders
